Test Tile #1

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #2

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #3

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #4

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #5

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #6

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #7

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #8

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #9

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #10

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #11

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #12

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #13

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #14

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #15

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #16

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #17

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #18

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #19

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #20

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #21

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #22

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #23

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #24

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Recipe (ingredient — amount — %)

Tile photo / sketch

Layers (order, coats, glaze on glaze)

Result notes (surface, colour, crazing, running, pinholes)

Result: 1 2 3 4 5 Keep? Yes / No / Retest Next change: _____

Test Tile #49

Date: _____

Glaze / recipe name

Clay body

Cone / target temp

Atmosphere (ox / red / other)

Application (dip / brush / spray / pour)

Thickness / number of coats

Firing program / schedule

Peak temp & hold

Slow cool? (Y/N, details)

Kiln & shelf position

Recipe (ingredient — amount — %)

Tile photo / sketch

Kiln Firing Log — Firing #____

Date	Kiln
Firing type (bisque / glaze / luster / other)	Program / schedule
Cone / peak temperature reached	Hold or slow cool
Element firing count (this kiln)	Witness cones / results

Load contents (shelf by shelf, tile #s)

Results & notes

Kiln Firing Log — Firing #____

Date	Kiln
Firing type (bisque / glaze / luster / other)	Program / schedule
Cone / peak temperature reached	Hold or slow cool
Element firing count (this kiln)	Witness cones / results

Load contents (shelf by shelf, tile #s)

Results & notes

Kiln Firing Log — Firing #____

Date	Kiln
Firing type (bisque / glaze / luster / other)	Program / schedule
Cone / peak temperature reached	Hold or slow cool
Element firing count (this kiln)	Witness cones / results

Load contents (shelf by shelf, tile #s)
